Föreliggande häfte innehåller planscherna till de runinskrifter, som äro behandlade i det tidigare (1924) utgivna Första häftet av »Södermanlands Runinskrifter». Omarbetningen av bildmaterialet har föranlett en icke obetydlig ökning av det ursprungligen avsedda antalet bilder. För att möjliggöra dessas inordning i arbetet har den vid textens redigering tilltänkta ramen för planschdelen måst övergivas, så att »plansch» och uppslagssida icke längre sammanfalla. Vissa planschnummer i texten motsvaras följaktligen av två eller tre sidor i detta häfte; å andra sidan ha en del sidor här måst betecknas med dubbla planschnummer, t. ex. Pl. 21, 22, där alltså sammanförts bilder, till vilka i texten hänvisas under »Pl. 21» och »Pl. 22». I slutet ha sammanförts en del fragment, fotografier av avtryck och avbildningar av försvunna inskrifter, hämtade ur arbeten av Richard Dybeck. Titelblad och register till hela verket samt anvisningar rörande dess bindning komma att meddelas i ett följande häfte.

Redigeringen av detta häfte har efter lektor E. Brates död välvilligt övertagits av professor E. Wessén, som i arbetets sluthäfte kommer att meddela en del tillägg till inskrifternas läsning och tolkning. Fotograferingen har i flertalet fall utförts av Akademiens tecknare, herr Harald Faith-Ell.
